

Chronic Care Management

Chronic Care Management (CCM) is an insurance sponsored program for Medicare patients with chronic conditions. It is administered completely over the phone and is designed to be an additional layer of support between office visits.

Benefits include:

- Monthly check-ins and on-demand support
- Coordinated care across all providers
- 24/7 nurse line
- Medication reconciliation
- Appointment scheduling
- Goal setting and follow-through
- Transportation, food supply, DME ordering support
